

DECLARATION AND POWER OF ATTORNEY FOR  
CONTINUATION-IN-PART PATENT APPLICATION

As a below-named inventor, we hereby declare that:

Our residence, post office address, and citizenship are as stated below next to our names, we believe we are the original, first and sole inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled PHOTOGRAPHIC AND VIDEO IMAGE SYSTEM, the specification of which is attached hereto.

We hereby state that we have reviewed and understand the contents of the above-identified specification, including the claims, and that we believe a patent on the claimed subject matter is not barred under any of the provisions of Title 35, United States Codes §102; that this application in part discloses and claims subject matter disclosed in our earlier-filed pending application, Serial No. 08/329,546 filed October 26, 1994 and is a continuation in part thereof and that said earlier-filed application is a continuation in part of application Serial No. 08/026,415 filed March 4, 1993;

That, as to the subject matter of this application which is common to said earlier application, we do not know and do not believe that the same was ever known or used in the United States before our invention thereof or patented or described in any printed publication in any country before our invention thereof or more than one year prior to said earlier application,

FOI b7D - 000000041001

or in public use or on sale in the United States more than one year prior to said earlier application; that said common subject matter has not been patented or made the subject of an inventor's certificate before the date of said earlier application in any country foreign to the United States on an application filed by us or our legal representatives or assigns more than twelve months prior to said application; and that no application for patent or inventor's certificate on said common subject matter has been filed by us or our representatives or assigns in any country foreign to the United States; except as follows: Japanese Patent Application Nos. 4-065304 filed March 23, 1992 and 4-060684 filed March 17, 1992, upon which a claim for priority is made herein;

That, as to the subject matter of this application which is not common to said earlier application Serial No. 08/329,546 filed October 26, 1994, we do not know and do not believe that the same was ever known or used in the United States before our invention thereof or patented or described in any printed publication in any country before our invention thereof or more than one year prior to the date of this application, or in public use or on sale in the United States more than one year prior to the date of this application; and that said subject matter which is not common to said earlier application has not been patented or made the subject of an inventor's certificate in any country foreign to the United States on an application

09833820-041204

or in public use or on sale in the United States more than one year prior to said earlier application; that said common subject matter has not been patented or made the subject of an inventor's certificate before the date of said earlier application in any country foreign to the United States on an application filed by us or our legal representatives or assigns more than twelve months prior to said application; and that no application for patent or inventor's certificate on said common subject matter has been filed by us or our representatives or assigns in any country foreign to the United States; except as follows: Japanese Patent Application Nos. 4-065304 filed March 23, 1992 and 4-060684 filed March 17, 1992, upon which a claim for priority is made herein;

That, as to the subject matter of this application which is not common to said earlier application Serial No. 08/329,546 filed October 26, 1994, we do not know and do not believe that the same was ever known or used in the United States before our invention thereof or patented or described in any printed publication in any country before our invention thereof or more than one year prior to the date of this application, or in public use or on sale in the United States more than one year prior to the date of this application; and that said subject matter which is not common to said earlier application has not been patented or made the subject of an inventor's certificate in any country foreign to the United States on an application

09033820 041201

filed by us or our legal representatives or assigns more than twelve months prior to the date of this application; and that no application for patent or inventor's certificate on said invention has been filed by us or our representatives or assigns in any country foreign to the United States.

We acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, §1.56(a).

And we hereby appoint JAY H. MAIOLI, Reg. No. 27,213, whose post office address is Cooper & Dunham LLP, 1185 Avenue of the Americas, New York, New York 10036, or his duly appointed associate, our attorney, with full power of substitution and revocation, to prosecute this application, to make alterations and amendments therein, to file continuation and divisional applications thereof, to receive the Letters Patent, and to transact all business in the Patent and Trademark Office in connection therewith, and specify that communications about the application are to be directed to the following correspondence address:

JAY H. MAIOLI  
c/o COOPER & DUNHAM LLP  
1185 Avenue of the Americas  
New York, NY 10036

and that all telephone calls be directed to Jay H. Maioli  
(212) 278-0400.

09833820-041201

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 in the United States Code, and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
